Price (pack of 250)  
(works out at 16p each)

A guide to refuse sacks:

With factors such as the climate change levy, landfill directives and packaging waste regulations impacting upon the workplace, the types of sacks a business uses can help a business confirm to the various laws and legislation.

Our range includes standard black, white and clear sacks in a range of sizes and weights to catering for various bin sizes, from wheelie bins to desk side waste bins.

We also offer a range of specialist coloured sacks; including for clinical waste, hazardous waste and waste segregation (recycling).

Sack Dimensions:

As a basic guide in most cases sacks are manufactured within stated tolerances and performance criteria. As a rule of thumb sacks can be graded on a simple scale; corresponding to drop weight tests:

- Light Duty = 5kg,
- Medium Duty = 10kg,
- Heavy Duty = 15kg, and
- Extra Heavy Duty = 20kg.

Typically a sack will have three measurements; closed width which is referred to as (GW) as most sacks have

a gusset, the fully open width (OW) and the length of the sack (L). Where the sack has no closed width or gusset it is typically referred to as a 'Pillow Sack'
