240 Ltr Wheelie Bin - Choice of colours, with or without lock

The C-240 container is made using the high-density polyethylene injection process , with solid colour and stabilised

against the combined effects of water and UV rays. The properties of the materials used in its production give its

dimensions a far tighter tolerance, and the product great resistance and lightness, incorporating such important benefits

as: maximum resistance to low-weight loading, easy to handle, easy to clean, resistant to bad weather and acid or

alkaline solutions, fungi, bacteria, washing detergents , etc...

Two 200 mm diameter wheels are supplied as standard with polypropylene rims and solid rubber tyres. It is equipped at

the rear with large handles and grips for easy, safe handling by users or collection and maintenance staff, while the front

supports in the lifting area ensure years of maintenance free use.

The C-240 container adapts perfectly to different types of selective collection : paper, glass, cans, etc.

It can be produced for DIN or AFNOR lifting systems.

Choice of colours: Blue, Green or Grey
